

MOBILE NOTEBOOK CASE DS-MNSC-10

- Safely houses up to ten laptop computers (virtually any model) with room for a wireless hub, etc.
- Compartments are padded and configurable
- Rugged construction of case is “shipping grade”

- Two six outlet surge-protected outlet strips mounted in utility well, with six foot exit cords
- Top handle pops up for easy transport
- Slotted and punched shelf for easy wire management

- Lock plate with key lock provides security. Case can be secured with a cable or stored in a locked closet for extra security

- Two side handles make it easy for carrying up stairs or into vans

- For re-charging, generously vented with four louvered vent panels
