**Padlock Security
Provided by
Master Lock™**

Two methods to secure your computer:

#1 Standard Kāblit Package

#2 Glue-on Package

General Information

The standard Kablit Package consists of a 10 foot cable and rekeyable lock, 4 Kablit hex fasteners, and 2 Kablit hinge fasteners. The principle behind these Kablit fasteners is to use the existing screws on your equipment. If no screws exist, a suitable glue-on package is available.

Security Method #1

Standard Kāblit™ Package

Secures up to six components

KAB-100

KAB-100

Package includes:

- 10' cable/lock
- 4 hex fasteners
- 1 standard hinge
- 1 long hinge

Available in putty only
Suggested Retail - \$49.95

Security Method #2

Glue-on Package

Secures up to four components

KAB-105

KAB-102

Glue-On Disc Package.

Package includes:

- 10' cable/lock
- 2 hex fasteners
- 1 hinge fastener
- 1 glue-on disc fastener
- 1 adhesive

Available in putty only
Suggested Retail - \$49.95

Internal Component Security

When a hex fastener is installed on the rear panel of most computers and the cable is passed through it, that rear panel screw is concealed. This prevents the removal of the screw and protects the internal boards and hard drives.

Lock/Cable Specifications:

Lock:The Master Lock key lock has a rekeyable cylinder. It is available in keyed alike, keyed differently, master keyed, grand master and reserved keyway.

Cable:The cable is 3/16" diameter steel, vinyl coated to 5/16" diameter with a breaking strength of 4000 lbs. The cable is available in putty and black

Package includes:

- 10' cable/lock
- 1 hex fastener
- 3 glue-on plate fasteners
- 1 adhesive

Suggested Retail - \$49.95

Securing to the workstation

Fig. 1

Once you have installed the fasteners to the equipment, pass the cable through them and lock the cable to the workstation as follows:

1. Around the table legs.
2. Through an opening in the workstation (Fig. 1).
3. Through an extra hex fastener, hinge fastener, or glue-on disc attached to the bottom of the workstation or to an immovable object.

Components can be purchased separately to make up your own tailored package.
